Climate (Top End)

Season	Description	Temp. Range
Winter (June to August)	Cooler and dry	6°C to 19°C
The temperature can drop below 0°C overnight in winter. Please ensure you are equipped for these extremes. Humidity Range 20% – 50%.	Fine weather with minimal rain and the possibility of getting quite cold by Territory standards during June/July.	
Summer (December to February)	Hot and humid	25°C to 38°C
The temperature can rise above 40°C during the day in summer. Please ensure you are equipped for these extremes. Humidity Range 30% – 95%.	The build-up occurs from September with building humidity, intermittent lightning storms and downpours. Rains typically arrive December/January with regular heavy downpours and the possibility of cyclones.

⁴ It is an offence to consume or bring alcohol into a dry community in the Northern Territory.

Other tips and relevant information

Other tips/relevant information

Be prepared for the variable standard of accommodation in communities. A sleeping bag sheet insert is a good idea for protection against biting insects.

Whenever possible, avoid being on the road from dusk till dawn. Apart from the unfenced cattle station, the region has a population of feral horses, donkeys, dogs and the occasional camel along with a native population of Kangaroos and Dingoes. All of which are a significant road hazard.

On arrival, please check with the Health Centre to understand any health or social issues within the community. They can also let you know of any sacred sites to avoid.

Disclaimer

This information is prepared in good faith and to the best of our knowledge at the time of printing. However, Aboriginal communities, like any community, can change as the population shifts and people move on. Please contact NT Remote Locum Program to confirm any key issues or concerns you may have ahead of your NT Remote Locum Program placement. NT Remote Locum Program also values any input you can provide to improve our Community Profiles.
